

ACHIEVING COLLECTIVE IMPACT ON NATURALIZATION

WHO WE ARE

The New Americans Campaign, launched in 2011, engages the resources of a national network of funders and non-profit partners to achieve collective impact on naturalization. Of the 9 million lawful permanent residents (LPRs) eligible to become U.S. citizens today, fewer than one million naturalize each year. The New Americans Campaign aims to achieve an increase in citizenship applications. We offer the programs and resources necessary for eligible residents to achieve the dream of U.S. citizenship.

Our broad network of partners provides assistance to lawful permanent residents (LPRs) for free or at minimal cost. These partners are located in dozens of locations across the country and comprise over 200 organizations.

BENEFITS OF CITIZENSHIP

Naturalization brings significant social, economic, and civic benefits not only to new citizens and their families, but also to local communities, individual states, and the country as a whole. Research shows that citizenship leads to increased civic engagement, improved wage earnings and economic mobility, and greater family and community stability.
